Instructions

^ COLLAPSE ^

1. Visit w3schools and go to the HTML Tutorial: <https://my-learning.w3schools.com/tutorial/html>
 1. Introduction and Basics Lessons 1.1 - 1.7
 2. Formatting and Style Lessons 2.1-2.6, 2.8 - 2.22
 3. Links Lessons 4.1 - 4.3
 4. Forms Lessons 10.1 - 10.6
2. Visit w3schools and go to the JavaScript Tutorial: <https://my-learning.w3schools.com/tutorial/js>
 1. Introduction Lessons 1.1 - 1.7
 2. Variables Lessons 2.1 - 2.4
 3. HTML DOM Lessons 23.1 - 23.14
3. Visit w3schools and go to the CSS Tutorial: <https://my-learning.w3schools.com/tutorial/css>
 1. Introduction Lessons 1.1 - 1.6
 2. Links Lesson 11.1
 3. Lists Lesson 12.1
 4. Selectors 16.1 - 16.5

Guide:

1. Make sure you're in the main branch locally and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below (`git checkout -b ...`)
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet

5. Add the output file to any location of your choice in your repository folder
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
8. Track the file(s) via `git add`
9. Commit the changes via `git commit` (don't forget the commit message)
10. Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)
11. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
12. Open and complete the merge of the pull request (it should turn purple)
13. Locally checkout main and pull the latest changes (to prepare for future work)
14. Take the same output file and upload it to Canvas

Group: Reflection

Task #1: Fill in the below prompts

Sub Task #1: What concepts/topics were totally new to you?

≡ Task Response Prompt

Mention specific concepts/topics

Response:

In HTML, learning about the different kinds of pannels/formatting you can add to a website, as well as forms and detailed parameters for fillign in information was some of the new things I read about and enjoyed. With JavaScript, learning about HTML DOM and the hierarchy involved was interesting as you can see clearly how it changes a webpage and how it fits in with HTML. As well as in JavaScript and how it handles with datatypes where any object can contain any type of data. As for CSS, learning about the different techniques you can employ to make your webpage look more vibrant such as dropdown menus, picture effects, color effects and more were all good to learn

about.

Sub-Task

Group: Reflection

Task #1: Fill in the below prompts

Sub Task #2: What concepts/topics were you already familiar with?

≡ Task Response Prompt

Mention specific concepts/topics

Response:

I was already familiar with the basics of HTML as I did make a few (small) websites for other courses in the past. I also am comfortable with the basics of JavaScript as it is an object oriented programming language like most of the other ones I have learned before. In terms of specific concepts, I don't know if I know too much about either besides the basics but I am sure with time and practice that everything will smooth out. I can't say anything about CSS as I didn't know how to use it before I started this class due to my very limited experience in website development.

Sub-Task

Group: Reflection

100%

Task #1: Fill in the below prompts

Sub Task #3: What topics do you still not feel confident about? If confident, explain why.

≡ Task Response Prompt

At least a few reasonable sentences.

Response:

I am not 100% confident about using JavaScript extensively because I haven't had lots of practice with it (yet). However, I know throughout this course with my own personal practice and the assignments we will do that I will become better at understanding and using it within my webpages. Also, I don't know about all of the different possible combinations of HTML design elements and CSS styling but again, with time and research (like more articles on W3 schools and other sources/webpages) I will be able to fully understand how they work and use them myself.
